

BuildingPoint™

Authorized Dealer

The Intelligent Design-Build-Operate Solution For

- ▶ General Contractors
- ▶ MEP Trades
- ▶ Structures
- ▶ Design and Detailing
- ▶ Architecture
- ▶ Real Estate
- ▶ Workplace

Who We Are and What We Do

BuildingPoint Pacific is the West Coast's leading vertical construction technology provider. As the Authorized Trimble Dealer for California, Hawaii, Oregon, and Washington, we are your main point of contact for the portfolio of Trimble Buildings products that include:

- Field Solutions
- Business Technology Suites
- An Array of Professional Services
- Rental Services
- Mixed Reality Solutions
- Jobsite Security Solutions
- Repair Services

Our portfolio of products provides the widest breadth of technology solutions for each phase of the building lifecycle. With the industry's only constructible process, and full range of tools and content to streamline team collaboration, Trimble solutions make data from complex projects more meaningful and actionable to improve productivity and achieve operational excellence.

SERVICES

Professional Services

Look to the experts of BuildingPoint Pacific to help you get the most value out of your Trimble solutions. Leverage our highly qualified team to manage and deliver your entire solution or provide consulting on specific components. Our goal is simple – to make you successful with our solutions.

- Construction Layout
- 3D Laser Scanning
- Modeling and File Prep
- Training
- BIM/VDC

Rental Services

We rent a broad range of hardware solutions to meet all your needs – daily, weekly and monthly rates available. Whether you need a complete package or just components, we can always get you what you need, when you need it. We have the following solutions available for your construction needs:

- Robotic Total Stations
- 3D Scanners
- GPS Receivers
- Tablets/Data Collectors
- Rotating Lasers
- Tripods, Prisms, etc.

Product Repair Services

As a certified Trimble warranty and repair center, we can provide you with local customer service, technical support, and help you overcome equipment challenges. Our team of highly trained, authorized Trimble service technicians provide:

- Repair of all Trimble Products
- Full Instrument Calibration
- Firmware/Software Updates
- Regular Maintenance
- Extended Warranties
- Cleaning

Instruments We Service:

- Robotic Total Stations
- GPS Receivers
- Tablets/Data Collectors
- 3D Scanners

Field Solutions

In the new BIM-centric project workflow, translating design intent to the field with speed and ease are key components to improved productivity. The Trimble portfolio of Design-Build-Operate (DBO) technologies enables seamless interoperability for designers, builders, and owners/occupiers while also providing benefits to teams involved in site preparation and management.

- Trimble Robotic Total Stations
- Trimble 3D Scanners
- Trimble R780 GNSS
- Trimble Ri
- Trimble Mobile Mapping (TIMMS)
- Trimble Tablets
- Trimble Field Solutions Softwares

Mixed Reality Solutions

Trimble mixed reality solutions blend virtual reality with the world by overlaying holographic data into real-world environments, providing technology solutions for each phase of the building lifecycle.

With the industry's only constructible process, Trimble solutions make intangibles more actionable, improving productivity and providing data so every person, phase, and process works together seamlessly.

- Trimble XR10 with HoloLens 2
- Trimble SiteVision
- Trimble Connect
- Trimble Connect AR/MR

CrewSight – Jobsite Access Control

Keep your jobsite secure and productive, your people safe, and your compliance and labor tracking managed. Add value through effective site management software combined with a jobsite access control system from CrewSight, part of ASSA ABLOY – the global leader in access solutions. Features include electronic worker self-enrollment, broadcast text alerts, real-time labor reporting and authorized labor site access control – all managed via an online portal and mobile app, for total visibility.

Trimble Construction One

Manage your entire business with one connected construction management software suite.

Trimble Construction One connects your construction applications and workflows.

Offering anywhere, anytime access to project data from the office to the field, it allows your team to create and collaborate more efficiently, taking your projects from design to done. By utilizing construction accounting systems, such as Viewpoint Vista or Spectrum, and project management tools like Trimble ProjectSight, Trimble Construction One removes duplicate work, enables automation, and reduces errors to maximize productivity and grow profit margins.
